# FOLDING RULE IN FIBREGLASS WITH END PIECE IN STAINLESS STEEL

Hultafors Tools is launching a new version of our folding rule in fibreglass with an end-piece of stainless steel. The end-piece is designed to increase protection against wearing at the tip of the stick.

Folding rule manufactured of fibreglass-reinforced polyamide, which gives increased resistance to moisture and chemicals. End-piece of stainless steel on the first and last stick which will increase protection against wearing. Metric scale in black on both sides and red decimetre figures.

- Increased resistance to moisture and chemicals.
- End-pierce in stainless steel.
- Foil embossed scale gives increased protection against wear.
- Type approved as per EU Class III.

Dispatch from our warehouse: Immediately.

The articles are in warehouse.

\* For orders with advertising print.

### PUT YOUR COMPANY IN FOCUS.

Hultafors can offer advertising material for a range of folding rule models, in both wood and fibreglass. Advertising matter can be placed on the section and/or side. Note that the printed surface may differ from model to model. Folding rules with advertising print are supplied as standard in packs of 10 (plastic foil) without the EAN code on the folding rule.

### COLOURS

Hultafors can offer printing in standard colours in the Pantone scale (PMS). At an extra cost, Hultafors can offer an additional 600 shades from the PMS scale. A quotation is supplied for special colours that cannot be mixed by Hultafors but have to be ordered. Note that small colour variations in relation to the PMS scale may occur.

### EXPLANATIONS PRINT AREA

RE = Print side. The folding rule has a normal scale on the end sections which only allows the possibility of a print area on the side (no section print). The print area is suitable for logotypes, company names or other text and images.

### INVOICING ADVERTISING PRINT

In addition to the costs of the product, a cost is charged per print and block. Furthermore, an extra cost is charged for special colours and processing of the enclosed originals. Note that for multicolour print, printing and blocks are charged per colour.
