

TOOLS

November 2009

A NEW CARPENTER'S HAMMER WITH FIBREGLASS HANDLE.

Hultafors Tools is launching a carpenter's hammer with a handle in fibreglass - at the same price level as our famous TS model.

Ergonomically designed hammer with fibreglass handle and a grip of Santoprene. Thin and strong claw for easy access without leaving marks.

- Right angle and shape of the striking face for optimal working condition.
- The claw opening and angle gives the best possible grip on the nail.
- Thin, strong claw for easy access without leaving marks.
- The claw is rounded to prevent it tearing your work trousers.
- Ergonomically designed and furrowed handle for optimal grip.

Dispatch from our warehouse: Immediately.
